PEMBERTON

Pemberton is a spectacular 28-minute drive north of Whistler Resort, accessible directly off Highway 99. The Village of Pemberton, nestled at the foot of majestic Mt Currie, is the hub of the Pemberton area.

The area was developed at the turn of the century as a result of forestry and agriculture. The Pemberton Valley lies northwest of the Village and is famous for its seed potatoes. Pemberton and district hosts world-class activities and recreation including snowmobiling, horseback riding, skiing, golfing, hiking, rafting, jet boating and gliding. The district also provides a variety of shopping and dining options, accommodations and a thriving service and light industrial sector.

The Pemberton district abounds with natural beauty surrounded by three of the most beautiful Provincial Parks in BC. With an average summer temperature of 26.8 degrees Celsius, there is ample opportunity for camping at Birkenhead Lake, Garibaldi, Joffre Lakes and Nairn Falls parks.

Pemberton is easy to reach by road and air. Highway 99 is a well-maintained major provincial highway, and the Village's airport provides access for fixed wing and helicopter traffic.

COOMBS

Coombs is a medium-sized development company with deep roots in British Columbia. We are from here, work here, play here and raise our families here. Formed in 1995 by siblings Greg and Tanya Coombs who share a passion for everything real estate, the company has experienced phenomenal success over the last 25 years which allows us the unique opportunity to be selective about projects that contribute to strong communities.

We believe our passion for building world-class real estate based on solid partnerships with quality architects and consultants, compounded with the ability to work collaboratively with municipalities, towns and villages gives us an advantage. Based on the principles of form and function, Coombs would not participate in any project we would not be proud to live or work in. We put our name on every project we are involved with and stand behind our work today and always.
