A Select Lifestyle

Curated by one of the most sought after interior design firms in the city, Ste. Marie created Lina's interiors from inspiration that came by having one of Vancouver's largest parks as its neighbour. Infused into every aspect of its design, natural elements and textures have been carefully incorporated into the style of each home. Together, they form an aesthetic that is warm, comforting, and reflects a level of sophistication that is luxuriously simple and effortlessly stylish.

Bringing the outside in, homes at Lina are rich in character and calm in nature - embodying the warm and organic textures of Queen Elizabeth Park.

Lina Living

Seamlessly merging the indoor and outdoor spaces, Lina's interior finishes are in harmony with the spectacular world around it. Filled with natural light, each home's highly functional design touches are complemented by a rich palette of natural materials, creating living spaces that are not only effortlessly livable, but genuinely comfortable in every sense.

Beyond The Park

Set on the highest point in Vancouver, Lina's elevation is not only reflected in the materials and finishes of every home, it is a tangible benefit you can experience from your roof top deck. Just steps from the natural landscape of QE Park, Lina boasts some of the most spectacular views of the park and beyond.
